Clinical Consultation Report

SYNTHETIC TRAINING DOCUMENT - NOT FOR CLINICAL USE

Patient ID	SYN-P001
Patient Name	Asha Nair (Synthetic)
Age/Sex	54 / Female
Encounter Date	2026-09-10
Document Type	Clinical Report

Chief Complaint

Persistent fatigue, weakness, and occasional dizziness for approximately six weeks.

History of Present Illness

The patient reports gradual onset of fatigue with reduced exercise tolerance. No chest pain or syncope reported. Appetite is reduced. She reports heavier-than-usual menstrual bleeding over the past several months.

Past Medical History

- Type 2 diabetes mellitus - documented history.
- No known chronic kidney disease.
- No prior blood transfusions.

Current Medications

- Metformin 500 mg twice daily.

Examination Summary

Alert and oriented. Mild pallor noted. No respiratory distress. Blood pressure 128/78 mmHg, pulse 88/min.

Assessment

Fatigue with possible hematologic contribution. Laboratory correlation requested.

Plan

CBC, ferritin, iron profile, and HbA1c requested. Follow-up after laboratory review.
