Synthetic Guideline: Elevated Glucose and HbA1c Follow-up

SYNTHETIC TRAINING DOCUMENT - NOT FOR CLINICAL USE

Knowledge Base ID	KB-DM-01
Document Type	Medical Guideline PDF
Status	Synthetic educational content

Scope

Simplified synthetic material for RAG demonstration only.

When glucose or HbA1c is elevated

• Review whether the result was fasting or non-fasting.

• Review previous glucose-related measurements when available.

• Correlate laboratory results with patient history and medication information.

• Escalate final interpretation to the clinician.

Follow-up principle

The system may recommend clinical review of abnormal values but should not independently diagnose diabetes.
